BUTTERFLY MIX

This lovely collection of mostly purple, pink and blue flowers is designed to attract butterflies to our gardens, balconies and window boxes. Each seed ball contains a mix of Purple Loosestrife, Forget-me-not, Musk mallow, Red campion and Yarrow, plus a sprinkling of pollinator-friendly annuals Chamomile, Cornflower, Corn marigold, and Night-flowering catchfly.

RED POPPY

A tube bursting with common poppy seeds. A bright red flowering annual- this hugely popular native wildflower is fantastic for pollinators and garden birds and a stunning addition to any wildflower garden. Each ball contains around 100 seeds.

SEEDBALL

Native wildflowers are naturally slow to germinate, and as such, loosely scattered seed can often be eaten by ants, birds, and mice. Seedball helps to solve this problem by encasing the seed in a protective ball of clay, compost, and chilli. Each pack contains 12 seed balls - coverage for 50cm² in a garden or two to three 50-80cm pots. Available in four varieties, Bee Mix, Butterfly Mix & Garden Meadow, which contain approx. 30 seeds per ball and Poppy, which contain approx. 100 seeds per ball.
